

KAYM 115 PLX

Full Automatic Paper Cutting Machine
Tam Otomatik Kağıt Kesme Makinesi

Digital Coordinate Measurement and Indicators (10" LCD Coloured Touchscreen) • 1.000 programs x 65 program steps • 65.000 pcs. program position memory • Sortings programs in numeric and alphabetic • Manual/ Semi-Automatic/ Full-Automatic Operation Modes • Label Programming • Equal (endless) Division-Program • Memorization of Cutting-Position Program • Indicator of Cutting-Quantity • Backgauge control in absolute and incremental system by program • Automatic backgauge orientation by forward-rearward buttons • Sensitive positioning of backgauge by hand-wheel • Calculator Function • Turkish, English and Arabic Language Packages • Pneumatic (Air Cushion) Table (easy movement capability) • Chrome Plated Table (stainless surface) • Table Light • Cutting Light Line function • Three-phase (380V / 50Hz) Electrical System • Lockable Main Switch • Servo Motor • Linear Guide • Precision-Ball Screw • Hydraulic Clamping, min-max. pressure adjustment • Gradual Pressure by foot pedal • Eccentric-Driven Cutting System • Double-Hand Button Security System • Knife Holder Safety Mechanism (Mechanical Lock) • Light Barrier Security Protection (Photocells) • Built-in Knife Lifting Device for quick change • The Backgauge Angulation and Skewness Removal System

Technical Data	KAYM 115 PLX
Cutting Thicknes	160 mm
Cutting width	1.150 mm
Cutting lenght	1.150 mm
Front table length	840 mm
Table Height	870 mm
Blade Thickness	12 mm Machinery Standart
Total Machine Lenght	2570 mm Machine Standart
Machine Width	2650 mm Machine Standart
Machine Height	1650 mm
Electrical Supply	440 V 50 Hz 3-Phase
Smallest Cut	20 mm
Without False Clamp	85 mm
Maximum Clamp Opening	165 mm
Useful Rare Table Lenght	1150 mm
Backgauge Return Speed	300 mm per sec.
Bacjgauge guidance	Top Mounted
Main Drive Power	4 Kw
Net weight	3000 kg.
